Voice Controlled Thermostat
Listens. Learns. Saves.

evohome
Create the perfect comfort zone.

Single Zone Thermostat
A true source of comfort.

Complete connected choice.

With our Voice Controlled Thermostat, evohome smart zoning system or Single Zone Thermostat, we really have all the bases covered.

There is really only one company that is offering your customers a real choice of 'connected' heating controls – Honeywell.

Whether it's a simple connected single zone thermostat, a unique voice controlled thermostat or a multi-zone connected heating system, we give you all the choice you need to satisfy any customer, system or boiler. We understand what you and your customers need, giving you complete confidence in our heating control systems.

Single Zone Thermostat

A true source of comfort.

It's a connected thermostat that thinks it's a programmable thermostat.

Single Zone Thermostat

- It's a wireless room thermostat that can be controlled from anywhere via the Honeywell Total Connect Comfort app
- It's a wireless programmable thermostat (time and temperature profiling via the Honeywell Total Connect Comfort app)
- It's a simple wireless one heating zone solution that can be used in any system, with any boiler

The success of the Honeywell single zone room thermostat is one of Europe's best kept secrets. Installed in thousands of homes, this simple to use, attractive wireless room thermostat is now available in the UK. This simple to use room thermostat will make the connected home more affordable.

If only everything in life was this easy to control...

Say "hello" to the Voice Controlled Thermostat from Honeywell that **listens, learns and saves.**

Voice Controlled Thermostat

- It's a voice controlled programmable thermostat
- It's a wired programmable thermostat, controlled from anywhere via the Honeywell Total Connect Comfort app
- It's a wired heating control that can be used in any system, with any boiler

Once again, we are providing innovative technology for the homeowner to give them full control of their heating system.

Voice activated technology is now established as a new way of controlling many different devices. A voice controlled thermostat is a natural progression, making changing room temperatures even easier.

This is the first control of its kind in the UK, reinforcing our position as the market leader in advanced technology for you and your customers.

Hello Thermostat

Complete connected choice

The entry level Single Zone Thermostat

The touchscreen and aesthetic evohome connected thermostat

The zoned upgrade evohome multi-zone heating control system

The new technology alternative Voice Controlled Thermostat

Total control of temperature via **smartphone or tablet app**

Create the perfect comfort zone.

The evohome controller gives you touchscreen control of your central heating

evohome multi-zone system

- You can quickly change things with our Honeywell Total Connect Comfort app; control your heating from wherever you are
- When used as a programmable thermostat, you have easy-to-see temperature and time schedules
- It has a built-in scheduling wizard making it easy to set the time and temperature
- Quick Actions function so you can easily set up the system for days off; lower temperatures at the press of a button and make controlling the heating when you are leaving home for short or long periods simple to do
- Once you have evohome installed, you can easily upgrade to a fully controlled Smart Zone heating system
- Independently control the time and temperature of up to 12 heating zones
- Why not have different time and temperature schedules for the areas you use the least?
- Now you don't have to heat your guest bedrooms to the same temperature as the rest of the house when no one is using them
- There are many different ways you can make your heating work with your lifestyle, and it can all be installed wirelessly without disturbing the décor.

The **evohome** system gives you back control of comfort levels and heating costs.
