

Then there was light

New Aqualisa Lumi™ Electric

AQUALISA

“ I've always believed that the things we choose to surround ourselves with should bring **enjoyment**. A shower can be a great start or end to the day, so why compromise here? I designed Lumi Electric to offer a daily moment of **joy**. A clean, simple form, utilising **light and reflection** to enhance your bathroom space and lift your mood. ”

Aaron Bourne

Aqualisa Lumi Electric Senior Designer

Aqualisa Lumi™ Electric

Experience water, reflection and light.

Electric showering like you've never experienced it before, Aqualisa Lumi Electric is the ultimate style statement with its contemporary mirrored glass fascia and illuminating panel with an adjustable brightness function.

With advanced performance and precision temperatures, rest assured that Aqualisa Lumi will deliver you a perfect shower every time.

AQUALISA

Experience touch.

Experience sensory touch control – start and stop the shower with ease and touch and hold to adjust the panel brightness. Let the power of light brighten your day.

Experience control.

Experience advanced performance and precision temperatures every time. The easy glide brushed stainless steel control makes it a breeze.

Experience water.

Create your own tailored water experience with five sensational spray patterns to choose from. Aqualisa Lumi's Harmony shower head also features easy clean nozzles to reduce limescale build up.
