- Monoblock chrome mixer - 84780408
- Extended flexible hose (2metres)- 83762502

The range

The Contour 7000 has a 7 litre capacity of hot water storage for oversink washing needs. Using the monoblock chrome accessory it can be fitted undersink. Alternatively the Contour 7000 Remote is a complete installation pack for undersink fitting, featuring an air operated sink mounted switch that when pressed delivers hot water through a remote swivel spout at your pre-set temperature. These units also benefit from minimal standing heat loss because they are installed at point of use.
