

# MC2

## Central Heating System SILENCER

High performance *MC2* from ADEY, the makers of the market leading *MagnaClean*® filter, effectively reduces boiler noise and restores heat efficiency.

Suitable for use in both sealed and open vented central heating systems, old and new.

- Prevents boiler noise
- Eliminates limescale
- Ensures optimum boiler efficiency
- Compatible with all metals including aluminum
- Environmentally friendly

---

## Physical and chemical properties

Appearance:	Liquid
Colour:	Colourless
Odour:	Slight
Solubility:	Fully miscible
pH (concentrated solution):	10.3
Relative Density:	1.02 g/cm <sup>3</sup>

---

## Product uses

For the reduction of boiler noise and improving heat efficiency, *MC2*, delivers effective protection for domestic central heating systems.

---

## How to use

A 500ml of *MC2* will provide effective treatment for a typical 100litre/ten radiator system.

For larger or heavily fouled systems, use further *MC2* as required.

To introduce *MC2* to the system, we recommend using the *MagnaClean* canister to dose the system.

Alternatively, dose via a radiator or F&E tank.

For long term system protection use *MC2 Silencer* in conjunction with ADEY's *MC1+ Protector*.

*N.B. NOT for use in single feed indirect cylinders.*

---

## Application

*MC2* is suitable for all sealed and open-vented central heating systems, old and new.

*MC2* is not suitable for use in single feed indirect "primatic" cylinders where potable water treatment is required.

---

## Packaging, handling and storage

Available in 500ml container. *MC2* is non-hazardous and while providing effective treatment is non-toxic and biodegradable. However, as for all domestic chemicals, keep out of reach of children.

Store at temperature above 0°C.
