COPPER TUBE CUTTERS

We asked plumbers: *What do you want from a tube cutter?*

The most common request was to come up with a design that was easier to grip, plus a cutter that doesn't require super strength to get the cut started!

We took onboard your feedback and began looking very hard at the internal geometry of the cutter together with the cutting edge of the wheel. Choosing the right combination allowed us to decrease wheel/roller loading which extends the life of the cutting wheel. The end result is a cutter that effects a precise, burr free cut that is easy to use with an all round superior performance. ”

Fast, clean cuts leave pipe virtually burr free

Self adjusting and self locking

Unique anti-slip grip

Spare cutting wheels available separately

RATCHET ACTION COPPER TUBE CUTTERS

This unique tube cutter operates by allowing the internal cutting head mechanism to rotate within its hard composite shell.

It sits comfortably in the palm of your hand and its ergonomic shaped casting combines maximum functionality with minimal grip.

Its handy design means it can easily be stripped down for routine oiling and maintenance. As with all cutters, we highly recommend that you avoid cutting pipes that are coated in paint or flux. ”

The Ratchet Action Copper Tube Cutters have an automatic action that allows for constant hand grip on the tool whilst cutting . Fast, clean cuts. Easy to replace cutting wheels. Ergonomic design and smooth operation limiting risk of hand fatigue. Patented design.

ADJUSTABLE RATCHET ACTION COPPER / INOX /

When asked: “How do you cut pipes that are difficult to access or close to a wall?”... 9/10 plumbers said they use a pipe cutter and a pair of grips.

Never again thanks to our **Adjustable Ratchet Action Tube Cutters.**

They come complete with a wheel for cutting copper tubing. A hardened wheel specially designed to cut stainless steel tubing is available and can be purchased separately. In addition to this we now offer an increased diameter wheel made to cut plastic and multilayer tubes (NT4067 only).”

The internal cutting mechanism rotates independently from body making it ideal for working in confined spaces.

The ergonomic handle is designed for single hand operation and requires low effort to operate. Built in foldable reamer for removing burrs (NT4023 & NT4035 only). **Patented design.**

'RAPTOR' PLASTIC AND MULTILAYER TUBE

Our market leading Raptor cutters are made from magnesium alloy, providing exceptional strength without the excessive weight.

The blades are simple and easy to change taking an average time of only **8-10** seconds to replace, thanks to the built-in 'ICS' feature! ”

These ultra precise cutters can slice through a pipe with minimal effort and no snagging. Their stainless steel blades are TEFLON® coated and are engineered by the reknowned *Solingen Blade Co*, in Germany.

Indirect cutting mechanism cuts with precise, minimal effort.
ICS (Instant Change System) - no tools required to replace blade.
Cushion comfort rubber grip (NT5042, NT5050, NT5063 only)
Blades 'park' within cutting head to prevent injury or blade damage.

Our largest sized Tube Cutter comes complete with a built in 'Noga' reamer. Its huge cutting width of 76mm and its four hardened steel rollers make it the preferred choice of commercial engineers. The rapid adjustment feature makes it a breeze to alter the diameter setting. Comes complete with a spare wheel in the handle. ”

5 Year Guarantee - Conditions apply

“

The 'Noga' reamer can be used as either in the cutter body or can be totally removed and used separately. This feature is particularly useful when deburring pipework that is already in situ.”

CORRUGATED STAINLESS STEEL TUBE CUTTER

NTCSST1

**Corrugated Stainless
Steel Tube Cutter**

Cuts Sizes:

**DN12, DN15, DN22,
DN28 & DN32**

AVAILABLE APRIL 2015

Our **Corrugated Stainless Steel Tube Cutter** is equipped with upper and lower rollers that are constructed from a material that will not damage either the tube or the tube coating.

INOX S/S TUBES

Spare wheel
code:

NTCSST1-1

The unique roller configuration guarantees that both ends of the tube are held firmly until the cut is complete. This ensures that no 'tags' remain on the mating surface of the pipe prior to assembly.

Its yellow "ochre" handle denotes that this cutter is designed for use within the gas industry. Comes with a spare wheel within the handle. Also capable of cutting solar heating pipework."

OLIVE CUTTERS

○ NTOLV15
Olive Cutters
15mm

○ NTOLV22
Olive Cutters
22mm

MADE IN
the UK

Our high quality **Olive Cutters** are incredibly easy to use, thanks to their parallel twin cutting blades. They are the fastest and easiest way to remove brass and copper olives. Leaves the pipe virtually unblemished and ready for the next fitting. ”

DRAIN PIPE CUTTING & CHAMFERING TOOL

NTDPCCT2

Drain Pipe Cutter
160mm

NTDPCCT1

Drain Pipe Cutter
110mm

For the drainage engineers amongst you, our **Drain and Soil Pipe Cutting and Chamfering** tool will be a welcome addition to your arsenal. Combining two operations: it firstly cuts the pipe and secondly, chamfers its end. Never again will you have to worry about dislodging an “O” ring during installation! ”

Can be used freehand, attached to a vice or clamp. Rugged design with replaceable heavy duty cutting blades. Tool automatically clamps to pipe to prevent movement during cutting/chamfering.

Inserts (as seen above) available separately

Our cutters are available in two frame sizes. Each have additional inserts available separately to allow a vast array of different sized pipework to be cut. The inserts come in two halves and securely clip into both parts of the outer frame. Details on request.”

MAX TC TUBE CUTTERS

Our range of steel frame **Max TC Tube Cutters** are designed for use with larger tube sizes. The handle incorporates a sprung-loaded system that improves the cut and increases the life of the cutting wheels.

They include an ICS (Instant Change System) meaning the cutting wheels can be easily changed, with no tools required. For increased cutting performance, these Tube Cutters can be assembled with three cutting wheels.”

SUPERWIDE ADJUSTABLE WRENCH

MADE IN
JAPAN

NTMW68A

Superwide (Medium Duty)

Adjustable Wrench

Length: 8"

Max jaw width: 68mm

Our medium duty **Superwide Adjustable Wrenches** are manufactured from AD12 aluminium, making them light weight yet durable. Its adjustable 68mm wide jaw is designed for: siphon nuts, drop valve nuts and waste fitting nuts. ”

NOTE: THIS WRENCH MUST NOT BE STRUCK OR USED IN CONJUNCTION WITH AN EXTENSION BAR TO INCREASE LEVERAGE.

MINI ADJUSTABLE WRENCH

NTSWOMINI

Mini Adjustable Wrench

Length: 4"

Max jaw width: 18mm

Our precision engineered **Adjustable Mini Wrench** is designed for working in tight spaces and has the largest jaw width in its class. Made from CRV steel, our little wrench may be small - but it certainly means business! Ideal for use on drain valves and internal boiler fittings. ”

MULTI-ANGLE WRENCH

NTMAW10

**Multi-Angle
Wrench**

Handle: 10"

Jaw width: 53mm

Our versatile **Multi-angle Wrenches** are manufactured from CRV with a lightweight aluminium handle.

Its adjustable handle and jaw is designed for working around difficult corners and features 10 lockable angle positions.”

ADJUSTABLE RATCHET ACTION WRENCH

NTMWR36

**Adjustable Ratchet
Action Wrench**

Handle: 10"

Jaw width: 0-36mm

**MADE IN
JAPAN**

Our **Adjustable Ratchet Action Wrench** has a slim jaw design coupled with extra wide 36mm jaw width. It has a unique ratchet action and its ergonomic anti-slip handle gives a comfortable hand grip."

SELF-LOCKING HEAVY DUTY HAWK WRENCHES

Our **Self-Locking Hawk Wrenches** have an immense jaw grip thanks to their 'Three points of contact' configuration.

We offer the full range of cast iron and aluminium models. Because of the spring loaded jaws, these wrenches actually incorporate a ratchet mechanism, allowing you to leave the tool on the pipe whilst loosening/tightening. ”

Powerful triple point grip.

Self-locking jaws, no size adjustment necessary.

Spring loaded jaws enable a fast, positive ratchet action.

High strength, CRV steel jaws prevent slippage.

ViperGrip Pump Pliers
Length: 10"
Max jaw width: 55mm

NTVPRG180
ViperGrip Pump Pliers
Length: 7"
Max jaw width: 43mm

We asked fellow plumbers: What could we do with our Pump Pliers to make your life that little bit easier?

Although there wasn't much to improve, the one request was for an adjustment that would never slip. "

ViperGrip Pump Pliers are available in 3 sizes: 7" 10" & 12".

Slim jaw design with push button adjustment.

Perfect for working in and around boilers, pump valves, nuts and unions in awkward positions.

As a result, we came up with a 'push button' design which allows for precise, fine increments. We're pleased with them and believe that you will be too."

VARIABLE BILATERAL WRENCHES

DESIGNED TO GRIP, NOT SCRATCH!

Our Variable Bilateral Wrenches (VBW's) are possibly our flagship tool. They are without doubt one of the most innovative products to ever hit the plumbing market making them an absolute must for all engineers."

Available in 3 sizes, 8" 10" & 12"

Can be used on anything from seized rusty nuts to gold plated fittings, without fear of damaging them.

Jaws are consistently parallel in every adjustment position.

Their immense grip is provided by a 10:1 force ratio from the handles to the jaws giving the user 100% confidence when using this tool. In addition, they incorporate a 'ratchet' type action allowing you to release the handles slightly on the return stroke without removing the jaws from the fitting.

IMMERSION WRENCH

NTIMMW
Immersion
Wrench

MADE IN
the UK

Our solid cast **Immersion Wrenches** are designed to be struck to shock the heating elements loose from a cylinder. Care must be taken though to not damage the cylinder neck. But you guys already know that! ”

Lifetime Guarantee

BASIN WRENCH-CLAW TYPE

Should you ever come across one of those old corner basins that require a tap change, then the only tool able to reach the backnuts/tap swivels is this Basin Wrench.

An essential piece of plumber's kit! ”

Our Basin Wrench-Claw Type has 2 ultra thin sized jaws, enabling quick access to awkward backnuts and tap swivels.

FIREJET BLOW TORCH

FIREJET

NTFJ500 / NTFJ500R

Nerrad FIREJET

Blow Torch

NEW & EXCLUSIVE

What can we say about our new FIREJET Blowtorch other than... WOW! We've improved upon a classic design to include some all important features and enhance it's usability...

First of all, we've added a nozzle that can be stripped down to give instant access to the diffuser. Should you be unfortunate enough to drip solder or flux onto it, there's almost no down time as it can be removed, cleaned and re-assembled. However, should the diffuser be uncleanable then a new one can be purchased separately.

Secondly, no matter how careful you are, sometimes accidents do happen! The common one is to finish soldering, extinguish the flame and put the gas/ torch back on the carpet...only to turn round and knock it over! No matter how quickly you realise and stand the bottle back up, it's too late and you've charred the customer's carpet. Therefore, we've engineered our nozzles to not get too hot, thus avoiding this potentially unpleasant and costly mistake.

Finally let's talk gas bottle connections. Of course our torches will fit the industry standard CGA600 bottles but we've gone one step further. To accommodate environmentally friendly refillable bottles, our Blow Torch works with refillable cylinders. We could have simply offered an adaptor but come on guys...would you adapt a gas valve from one make of boiler to fit another by using adaptors? We rest our case."

HEAT STOP

MADE IN
the USA

NTHSCOMP
Heat Stop Compound
340g

Our phenomenal **Heat Stop** compound creates a thermal barrier, preventing transfer of heat along metallic pipes. It allows you to solder without fear of heat creeping along the pipe, causing possible damage to plastic fittings (A), or accidentally thawing ice plugs on frozen pipework (B).

Simply remove the compound from the pot and carefully mould around the circumference of the pipe. Position the compound between the heat source and the section of the pipe/fitting you want to protect from residual heat. Then solder away. It's non-toxic and can be used over and over again."

BURN MATS

Our flexible surround barriers (Burn Mats) are available for both MAPP and Propane gas use.

Their cut-out design allows them to be easily wrapped around a pipe, providing heat protection to surrounding surfaces.

Please ensure that you choose the correct type of mat and avoid using MAPP gas on a propane type burn mat. ”

VERSA-FUNNEL

NTVSF1
Versa-Funnel

Our unique **Versa-Funnel** is formable into virtually any shape to suit numerous applications. Helps contain those nuisance drips when working on: radiators, draining cylinders and is especially useful to boiler engineers for catching or diverting water away from PCB's... preventing a costly mistake.

Manufactured from flexible aluminium and covered with high grade nitrile rubber, this product is for use with virtually all liquids including oils and can withstand extreme water temperatures. ”

JET SWET - WATER FLOW PREVENTION

"Jet Swet"™
MADE IN USA

MADE IN
THE USA

Our **"Jet Swet" Water-Flow Prevention Device** is designed to temporarily isolate the flow of water in pipes to allow you to work on the removal, refitting or soldering of valves or fittings.

They can hold up to 75 PSI of pressure allowing heavy duty work to be carried out. You can stem the flow from a tank downservice whilst removing/replacing the gate valves. Or in central heating, you can temporarily isolate the feed and expansion downservice pipe.

Jet Swet's come in sizes from: 15-150mm. The 15mm, 22mm and 28mm's are stock items, but larger sizes are available to order. "

POW-R WRAP REPAIR SYSTEM

“**Pow-R Wrap**” is an industrial strength, permanent and economical repair kit. It is effective on virtually every kind of pipe (including fluid bearing pipes). It’s an easy alternative to traditional methods such as: cementing, soldering, welding, sleeving and replacement. Works on wet, dry, clean, dirty or corroded pipes - even under water!”

Simple to apply:

Just relieve pressure from the pipe and wet bandage for 30 seconds whilst still in the foil pouch. Then remove from the pouch and wrap over the leak in the pipe, moving in *ONE* direction only.

Leave to dry for approximately 30 minutes to effect a permanent repair. Be sure to wear the enclosed gloves at all times when carrying out the repair.

NOTE: Pow-R Wraps can also be used on pipes conveying gas but are NOT for use with natural gas or LPG due to current regulations.

**MADE IN
the USA**

 (Bandage Size: **4”x180”**)
 For Pipes: **4-6”**

Extra sizes available: **NTPW4360** (for pipes: 6-8”) and **NTPW872** (for extra wide pipes).

NOTE: Custom made sizes available on request.

HACKSAW

MADE IN
FRANCE

NTHS300

**High Tension Hacksaw
300mm**

Our premium, high tension **Hacksaw** is designed for use by professionals. Quick and easy to change the blade. Comes with a 24TPI blade. Tension adjustment within the handle. Nose of the saw is specifically weighted to help the user achieve perfect cuts everytime. ”

PLUMBER'S LEVEL

NTPLVL1

**Aluminium Torpedo
Plumber's Level**

Our **Plumber's Level** is expertly machined from a single piece of high grade aluminium, making it hard-wearing and reliable. It comes fitted with 4 extra strong, oversized earth magnets for use on magnetic surfaces."

Five planes of measuring: 30°, 45° and 90° - horizontal & vertical, plus a bullseye level. Adjustable strap allows for 'hands free' use on non-magnetic surfaces, even plastic pipes.

Replaceable spare vials available separately (codes on request).

Lifetime Guarantee - Conditions Apply.

UTILITY KNIFE

MADE IN
SPAIN

NTULT1
Retractable Utility
Knife

Our **Retractable Utility Knife** is a premium tool with easy opening. The interior has a magnet which holds the blade in place and the internal blade container can store up to 10 spare blades.

Its sprung loaded ball bearings press on the side of the blade ensuring there is no movement whilst cutting. The tool comes complete with a safety case which can clip onto a belt and 2 x spare blades. ”

Magnet prevents blades from falling out whilst being replaced

Inner case holds up to 10 blades (2 included)

Sprung loaded ball bearings prevent sideways blade movement

MANOMETER

NTUG30

U-Guage

Manometer

30mb

**MADE IN
the UK**

The classic Nerrad U-Gauge Manometer
measures gas pressure up to 30mb.

Sturdy plastic case.

'BIG GULP' SUCTION GUN

'Big Gulp'
Suction Gun

Sucks out the annoying dregs from WC cisterns, catchment bowls, tanks, pipes and cylinders.....in fact anything at all that needs draining out!!"

AVAILABLE
MAY 2015

Solid ABS construction with brass fittings. Tube has a capacity of 0.6L. Includes flexible hose and a detachable brass 'bell' to enable entry into small diameter pipework. This tool will prove to be worth it's weight in gold.

DARREN CHALKLY - MANAGING DIRECTOR

Darren Chalkly, MD of Nerrad Tools

Made by plumbers, for plumbers.”

Having been a plumber for the past 25 years, I'm only too familiar with the daily challenges faced by us industry professionals. One minute you're lying under a bath changing a set of Victorian bath mixers, the next you're having to contort your hands trying to replace a faulty diverter valve on a boiler that probably should have been condemned 20 years ago.

Out in the field no two tasks are ever the same, however it was this aspect of the job that appealed to me. I don't think many customers realise how diverse we all have to be. Nowadays my white van is parked up for good and I've moved into the office, but this has not curbed my enthusiasm for the industry which is as strong as ever.

Nerrad Tools was born out of a resolve to make the industry a better place to work in. It has been good to me and now it's my mission to try and give something back. Me and my hand-picked team (some of whom are industry professionals) set about creating the UK's premier plumbing tool brand some 5 years ago and so far it's been an exciting journey.

There is already a vast array of plumbing tools on the market, but we felt there was room for further improvement and innovation. We analysed your feedback and requirements and identified areas that could be re-developed. For example, we've aimed to build in an ergonomic, 'easier to use' functionality, requiring much less human force to operate, the result is reduced wear and tear for the product and the plumber alike.

Our goal is to provide a comprehensive range of plumbing products that are constructed to the highest standards, making everyday plumbing tasks easier to carry out, so that ultimately you (the engineer) can be more productive.

Darren Chalkly, MD of Nerrad Tools

ABOVE & BELOW: Examples of custom display units

Nerrad Tools produce a range of display units for retailers interested in showcasing our tools. The larger size includes a fixed touchscreen which allows for customer access to videos of our plumbing tool range in action. Measurement details are available on request.

NERRAD TOOLS TERMS & CONDITIONS

DEFINITIONS

The Buyer: the person, firm or company who purchases Goods from the Company.

The Company: Nerrad Limited.

Goods: All items or services which the Company is to supply to the Buyer.

CONDITIONS

All orders are accepted by the Company subject to and in accordance with the following Conditions of Sale. All orders accepted by the Company are deemed to be under these Conditions and to the absolute exclusion of all other terms and conditions (including any which the Buyer purports to apply under any purchase order, confirmation of order, specification or other document). Each order or acceptance of a quotation for Goods by the Buyer from the Company shall be deemed to be an offer by the Buyer to buy Goods subject to these Conditions. The sub-headings of these Conditions are for ease of reference only.

PRICES

Goods are invoiced at prices ruling on date of despatch and orders are accepted only on that basis. Prices are correct at time of printing. The Company reserves the right to change prices without prior notice. Any quotation given by the Company shall not be binding until the Company dispatches an acknowledgement of order to the Buyer.

Any quotation is valid for a period of 30 days only from its date, provided that the Company has not previously withdrawn it.

DESPATCH OF GOODS AND DELIVERY

(a) UK: Free on orders of £75 net value of Goods when despatched to Buyers premises in UK mainland by the Company's normal method of carriage. Northern Ireland, Channel Islands, all UK offshore islands and any non-standard delivery addresses (i.e. not Buyer's own normal delivery address), delivered free of carriage on orders of £150 net value. When a special method of delivery is requested e.g. post, Parceline a.m. service, airfreight, Datapost etc., then carriage will be charged in full regardless of order value.

(b) Export: For details of freight & insurance, minimum order value and carriage, ask the Buyer's usual sales contact at the Company.

(c) Any dates specified by the Company for delivery of Goods are intended to be an estimate only and time for delivery shall not be of the essence.

(d) The Company may deliver the Goods by separate instalments and each separate instalment shall be invoiced and paid for in accordance with these Conditions.

PACKING

Cases and cartons are free and non-returnable.

TERMS OF PAYMENT

(a) UK: All Goods supplied shall be paid for within 30 days from the date of invoice by the Company.

(b) Export: For details please ask the Buyer's usual sales contact at the Company.

(c) Time for payment shall be of the essence.

(d) No payment shall be deemed to have been received until the Company has received cleared funds.

(e) Non-compliance with the Company's terms of payment shall constitute default without reminder. In case of default the Company may charge interest at the rate of one and a half percent per month from the date upon which the payment falls due until payment is made. In the event that the Buyer shall fail to fulfil the terms of payment in respect of any invoice the Company may in its sole discretion demand payment of all outstanding balances whether due or not, cancel all outstanding orders and/or decline to make further deliveries except upon receipt of cash or satisfactory security. The Company reserves the right to claim interest under the Late Payment of Commercial Debts (Interest) Act 1998.

(f) The Buyer shall not be entitled to withhold or set off payment of Goods delivered by virtue of any debt claim or allegation.

(g) Where any prices quoted are exclusive of VAT, VAT shall be payable in addition (where applicable) at the prevailing rate.

(h) The Company reserves the right to operate a minimum invoice charge.

(i) The Company reserves the right to operate a percentage deposit charge.

PASSING OF RISK

The risk in the Goods shall pass to the Buyer when the Company delivers the Goods in accordance with the terms hereof to the Buyer or other person to whom the Company has been authorised by the Buyer to deliver the Goods whether expressly or by implication and the Company shall not be liable for the safety of the Goods thereafter and accordingly the Buyer should insure the Goods thereafter against such risks as may be commercially prudent.

RESERVATION OF PROPERTY AND RIGHTS OF DISPOSAL

(a) Until payment by the Buyer in full of the price for the Goods and any other monies payable to the Company:

(i) The Goods shall remain the sole and absolute property of the Company as legal and equitable owner.

(ii) The Buyer shall hold the Goods solely as a fiduciary

for the Company and shall store the Goods separately from his own Goods or those of any other person and in a manner which makes them readily identifiable as the Goods of the Company and shall hold the proceeds of sale of the Goods in trust for the Company and shall keep them at all times identifiable as the Company's monies and shall not mingle them with other monies or pay them into an overdrawn bank account.

(iii) The Buyer shall insure the Goods against all normal commercial risk to their full replacement value with an insurance company of repute.

(iv) The Buyer's right to possession of the Goods shall terminate immediately if the Buyer has a bankruptcy order made against it, or makes an arrangement or composition with its creditors or otherwise takes the benefit of any statutory provision for the time being in force for the relief of insolvent debtors or (being a company) convenes a meeting of creditors (whether formal or informal), or enters into liquidation (whether voluntary or compulsory) except a solvent voluntary liquidation for the purpose only of reconstruction or amalgamation, or has a receiver and/or manager, administrator or administrative receiver appointed, or a resolution is passed or a petition presented for the winding up of the Buyer or for the granting of an administration order or any proceedings are commenced relating to the insolvency of the Buyer.

(b) The Buyer shall be deemed not to have paid the Company for Goods in the possession of the Company at any time unless the Buyer can prove that payment has been received by the Company.

(c) At any time prior to the payment in full of the price and other monies payable to the Company in respect of the Goods the Company or its agents may enter the premises of the Buyer and take possession of any Goods of which the Company is the owner and remove and dispose of them as the Company sees fit and the Buyer gives the Company an irrevocable licence to enter upon its premises for such purpose.

(d) The Company shall be entitled to recover payment for the Goods even though ownership has not passed from the Company.

GUARANTEE AND WARRANTY

All products are provided with a guarantee against faulty materials and/or workmanship. The terms of the guarantee varies from product to product and the details for any particular product are as provided on the Company's individual product brand websites or provided to the Buyer in writing upon request. Any faulty products will be replaced or repaired free of charge at the discretion of the Company in accordance with the relevant guarantee if found to be faulty, provided they are returned immediately to the Company at the Buyer's cost. The reason for return must be clearly stated.

The Company is not liable for the following: Any direct consequential loss or damage of anything whatsoever (including, without limitation, loss of profits, revenue or contracts, pure economic loss or similar loss) or for any damage to or destruction of any property, injury to or death of any person, except to the extent that such injury or death is caused by the negligence on the part of the Company or its employees; costs, damages, charges or expenses caused directly or indirectly by any delay in the delivery of the Goods (even if caused by the Company's negligence) any Goods which have been repaired or altered in any way, any Goods which have been subject to accident or damage or which have been maintained, stored or used improperly; unsuited, inappropriate and faulty application or treatment, normal wear and tear due to use.

All samples, drawings, descriptive matter, specifications and advertising issued by the Company and any descriptions or illustrations contained in the Company's catalogues or brochures are issued for guidance purposes only to give an approximate idea of the Goods described in them and do not form part of these Conditions.

CLAIMS

The buyer is required to notify the company by phone and then confirm by letter/email regarding:

(a) NON DELIVERY

To the Company within 3 days of receipt of invoice which is sent to the Buyer on the day following dispatch of Goods.

(b) SHORTAGES

To the Company immediately.

(c) PILFERAGE AND DAMAGE

To the Company and its carriers within 24 hours of receipt of Goods.

Carriers' sheet to be endorsed with details of open or damaged cartons.

It is emphasised that delay by the buyer may cause the company's claim to be rejected by the carriers. In this event the company would not accept any responsibility for loss.

(d) INVOICE QUERIES

To the Company within 30 days of receipt of invoice.

(e) The Company shall not be liable for any non-delivery of Goods (even if caused by the Company's negligence) unless the Buyer has so notified the Company in accordance with the above provisions.

(f) Any liability of the Company for non-delivery of the Goods shall be limited to replacing the Goods within

a reasonable time or issuing a credit note against any invoice raised for such Goods.

LIMITATION OF LIABILITY

(a) Subject to the provisions of paragraph (b) of this Condition it is expressly stipulated that in the event of any claim on any ground being made by the Buyer against the Company in respect of the Goods or any matter arising from or in relation to the contract relating thereto the liability the Company shall be limited (in respect of each claim or series of connected claims) to the invoice value of the Goods and under no circumstances shall the Company be under any further liability to the Buyer whether for loss of profit or for any direct or consequential loss howsoever arising.

(b) Notwithstanding any provisions herein contained nothing in these Conditions shall operate or be construed as operating to exclude or restrict any liability of the Company for death or personal injury resulting from the negligence of the Company.

(c) Whilst every care is taken in handling Goods by the Company's employees liability is excluded for any damage to such Goods by any cause whatsoever.

(d) On electrical devices liability is excluded for any unforeseen circumstances brought about by power failure or spiking (not notified to the Company before installation of the equipment).

RETENTION OF DOCUMENTS

The Company will retain all documents relating to orders etc. for a maximum period of 2 years.

RETURNS

Goods supplied correctly to Buyer's order cannot be accepted for return or exchange unless by prior agreement in writing and a minimum 15% handling charge will be made. Additional charges may be made if the products are returned in a non re-saleable condition, e.g. if product cards and/or packaging are damaged.

SPECIFICATION

Due to the Company's policy of continuous improvement it reserves the right to alter specifications without prior notice. The Company also reserves the right to substitute items which have been discontinued or improved with the replacement model.

PREVIOUS CONDITIONS

If at any time one or more of the above conditions becomes in whole or in part invalid, illegal or unenforceable in any respect under any law the validity, legality and enforceability of the remaining provisions thereof and of the other Conditions herein shall not in any way be affected or impaired thereby.

STANDARD QUANTITIES

The column headed 'box qty' in the catalogues and price lists indicates the number of items contained in outer cartons. The Company reserves the right to amend the Buyer's order quantities to the nearest outer carton quantity.

FORCE MAJEURE

The Company reserves the right to defer the date of delivery or to cancel any order for Goods or to reduce the volume of Goods delivered without liability to the Buyer if it is prevented from or delayed in the carrying on of its business due to circumstances beyond its reasonable control, including (without limitation), acts of God, governmental actions, war or national emergency, acts of terrorism, protests, riot, civil commotion, fire, explosion, flood, epidemic, lock outs, strikes or other labour disputes (whether or not relating to either party's workforce), or restraints or delays affecting carriers inability or delay in obtaining supplies of adequate or suitable materials, provided that, if the event in question continues for a continuous period in excess of 3 months, the Buyer shall be entitled to give notice in writing to the Company to cancel the order.

GOVERNING LAW

All contracts shall be governed by English Law. In the event of any dispute whether of interpretation or otherwise or as the liability either of the Company or the Buyer arising out of the sale, use or operation or failure to operate the Goods or of any part thereof the same shall be determined by English Courts of Law to whose jurisdiction the Company and the Buyer hereby submit.

GENERAL

(a) Each right or remedy of the Company under these Conditions is without prejudice to any other right or remedy of the Company, whether under these Conditions or otherwise.

(b) Failure or delay by the Company in enforcing any provision of these Conditions shall not be construed as a waiver of any of its rights under these Conditions.

(c) Any waiver by the Company of any breach of, or any default under, any provision of these Conditions by the Buyer shall not be deemed a waiver of any subsequent breach or default and in shall no way affect the other terms of these Conditions.

(d) It is not intended that the any term of these Conditions shall be enforceable by virtue of the Contracts (Rights of Third Parties) Act 1999 by anyone other than the Buyer and the Company.
