

PMV28

SALUS 2 Port Motorised Valve

The SALUS Motorised Valve has a simple to replace actuator that requires no need to drain down. The actuator comes complete with a manual lever for filling or draining down the heating system. These valves offer outstanding performance and high reliability to the user. Suitable for all domestic circumstances as well as certain commercial applications.

Electrical

Switching Voltage: 230V AC / 50Hz

Power Consumption: 6W

Response

Opening: 14 seconds

Closing: 3 seconds

Differential Pressure

Pipe size 2 Way

28mm 0.6 bar

Max Static Pressure: 8.6 bar

Operating Temperatures

Min Fluid Temperature: 5 °C

Max Fluid Temperature: 88 °C

Environment

Operating Temperature: -10 °C to + 60 °C

Storage Temperature: - 20 °C to + 65 °C

Protection class: IP20
