

CARRY LESS, DO MORE

Double-Ended “Ratchet-Style” Spanner

NT6322

Dual-Size Heads

Features 24 mm & 32 mm heads, for standard 15 mm and 22 mm compression fittings.

All-in-One Design

Replaces the need to carry multiple spanners, lightening your tool bag.

Continuous Ratchet Action

Turn nuts continuously without removing the spanner from the fitting, significantly speeding up your workflow.

Ergonomic Grip

Engineered for comfortable, extended use, minimizing hand fatigue on long jobs.

The smooth ratcheting mechanism allows continuous tightening and loosening without constant repositioning, saving time on repetitive tasks.

Its multi-use design reduces the number of tools needed on site, while the durable construction delivers reliable performance in demanding working environments.
